## Statement of Purpose

As it is the Board's conviction that the public library is the principal means whereby the record of thoughts and ideas, and the expression of the creative imagination is made freely available to all, Perth East Public Library shall:

1. Assemble and administer, in organized collections, books and related educational, informational and recreational materials in order to promote, through guidance and stimulation, the communication of ideas, and enlightened citizenship and enriched personal lives;
2. Provide books and other materials through which inquiring minds may encounter the original, sometimes unorthodox and critical ideas so necessary in a society that depends on the free circulation of ideas for its health and survival; and
3. Provide a progressive, user-oriented service, which responds to and anticipates the educational, cultural, leisure and other information needs of the community of Perth East.

## Goals of the Collection

1. To provide access to all expressions of knowledge, creativity and intellectual activity.
2. To provide a wide range of resources for self-development and independent study, and to complement formal education.
3. To meet the informational needs of all members of the community.
4. To provide materials which stimulate and support enjoyment of and participation in cultural life.
5. To provide access to information of local interest or concern.
6. To provide materials for recreational and leisure time use.

To achieve these goals, the Library staff shall endeavour to:

1. Select materials which represent all sides of a wide range of issues.
2. Consider materials in terms of timeliness, demand, quality and authority.
3. Develop collections of materials in a variety of formats.
4. Acquire materials for all ages and levels of comprehension.

## Collection as Part of the System

The Board recognizes that the information needs of the community cannot be met through the resources of Perth East Public Library alone. The Board views the Library's permanent collection as once essential element in an information system, which also includes PCIN's collection, interlibrary loan, the sharing of resources and cooperative resource development with neighbouring libraries, and supplementary deposit collections coordinated by CELA (CNIB).

2. The CEO ensures that the collection is properly maintained and organized and that an effective collection control system is in place.

## Content of the Collection

Perth East Public Library will provide as wide a spectrum of materials as budget and space limitations will allow, with emphasis on:

1. Materials which record and communicate historical, scientific, social and cultural knowledge;

Other types of material shall include periodicals, and non-print materials such as audio and video recordings and digital books and downloadable materials.

## Language

1. As the Board is committed to providing library service in both official languages of Canada, English and French language materials will be acquired in relative proportions, which, as derived through analysis and experience, are most appropriate for the community.
2. The Library shall endeavour to meet the needs of clients who require materials in languages other than English or French through participation in the interlibrary loan network.

## Size of the Collection

1. The Board recognizes that, given the limitations of available physical space, the size of the collection must be limited in order to:
  - a. Ensure adequate space for public and staff circulation and activities, and
  - b. Avoid overcrowding of the collection which would hamper access to materials and give an impression of disorder and lack of control.
2. Each year material will need to be replaced. The replacement rate suggested by the American Library Association (ALA) is one-sixth of a volume per capita per year. The ALA replacement rate will be used as a guide in the library.

## Intellectual Freedom

The public library is a democratic institution, and no individual or minority group should be allowed to limit the community's freedom to read. Democracy cannot flourish unless material representing all viewpoints is freely available. Perth East Public Library endorses the Canadian Federation of Library Associations "Position Statement on Intellectual Freedom and Libraries", which affirms its commitment to the following basic policies:

1. Every person in Canada have a fundamental right, subject only to the Constitution and the law, to have access to the full range of knowledge, imagination, ideas, and opinion, and to express their thoughts publicly. Only the courts may abridge free expression rights in Canada.
2. Libraries are a key institution in Canada for rendering expressive content accessible and affordable to all. Libraries are essential gateways for all persons living in Canada to advance themselves through literacy, lifelong learning, social engagement, and cultural enrichment.
3. Libraries have a core responsibility to support, defend and promote the universal principles of intellectual freedom and privacy.
4. It is the responsibility of libraries to safeguard and facilitate access to constitutionally protected expressions of knowledge, imagination, ideas, and opinion including those which some individuals and groups consider unconventional, unpopular or unacceptable. To this end, libraries shall acquire and make available the widest variety of materials and resist calls for censorship and the adoption of systems that deny or restrict access to resources.
5. It is the responsibility of libraries to safeguard and foster free expression and the right to safe and welcoming places and conditions. To this end, libraries make available their public spaces and services to individuals and groups without discrimination.
6. Libraries have a core responsibility to safeguard and defend privacy in the individual's pursuit of expressive content. To this end, libraries protect the identities and activities of library users except when required by the courts to cede them.
7. Libraries should resist all efforts to limit the exercise of these responsibilities while recognizing the right of criticism by individuals and groups.
8. Both employees, volunteers and employers as well as library governing entities have a core responsibility to uphold the principles of intellectual freedom in addition to their institutional responsibilities.

## Controversial Materials

1. The Board recognizes that some materials may be regarded by certain individuals or groups as controversial, whether because of bias, frankness of language, political expression, or moral implication. Selection should not, and will not, be made on the basis of anticipated approval or disapproval by any individual or group in the community, but rather on the evaluation by the CEO of the publication's literary merit, authenticity, honesty of presentation, topical interest and use to the audience for whom it is intended. The primary aim of materials selection is to establish a balanced collection which adequately represents various points of view on many subjects.

Technical and professional materials not intended for the untrained layman will not be included in the library's collection.

## Materials to be Excluded from the Collection

1. The Library collection provides materials for self -study but is not primarily designed to furnish reading required for academic study. 2. Materials which obviously foster religious or racial intolerance are outside the scope of this collection.
3. Materials that are banned under Canadian law will automatically be excluded from the Library's collection.

2. Requests by individuals or groups to have an item or items removed from the Library's collection shall be referred in writing on a Request for Reconsideration of Library Materials form to the CEO (see [Appendix A](#)).

5. If the inclusion of the item in the Library collection is found by the CEO to be questionable based on the guidelines set out by the Board policy, the item will be temporarily withdrawn from the collection and the Board will be asked by the CEO to make a decision on the matter. The Board will communicate that decision in writing to the complainant.

## Organization of the Collection

1. Classification
  - a. In order for the Library collection to be of maximum use and value to library users, the collection shall be organized in such a way as to facilitate access to the information contained therein. 2. Cataloguing

When obtaining catalogue copy for new items in the collection, preference shall be given to those methods requiring the least staff time, i.e. obtaining cataloguing from the materials supplier.
